Mr. Igawa

This office is evaluating the materials the ad hoc committee forwarded to us and we are also conducting a review of additional records we requested directly from Keiro Services.

While I understand and appreciate that the Ad Hoc Committee wants a formal response or report from this office related to the various issues raised by the committee, I cannot promise that we will publish such a report at this time because our investigations and our deliberations are ongoing.

We cannot give the ad hoc committee a date certain for when we will complete our review, but rest assured that we are conducting our investigation as expeditiously as possible.
